

DESIGNED FOR HEAVY LOADS

Shell Rotella® Greases offer solutions for many needs including home, farm, ranch, or business. Suitable for chassis, bearings, power couplings, fifth wheel & trailer connections and more. Whether your grease needs to perform within a temperature range, tolerate water exposure, prevent corrosion, or carry a heavy load, the Shell Rotella® family of greases offer a comprehensive line of high-quality, proven lubricant grease products designed to protect and perform.

WHICH SHELL ROTELLA® GREASE SHOULD I USE?

YOU NEED A GREASE THAT IS:

Extreme-Pressure, Multipurpose, Lithium Grease

Premium, High-Temperature, Multipurpose, Lithium Grease

Extremely Tacky, Water Resistant, High-Temperature, Lithium Grease

High-Temperature, Water Resistant Grease Containing Molybdenum Disulfide (Moly)

SHELL ROTELLA® MP GREASE

SHELL ROTELLA® HD GREASE

SHELL ROTELLA® ET GREASE

SHELL ROTELLA® SD GREASE

A cost-effective, general chassis and extreme-pressure equipment grease for low to medium temperature applications.

A high-temperature lithium complex EP grease suitable for a wide range of applications — from disk wheel bearings to industrial equipment, where performance requires an NLGI GC-LB, No. 2 grease.

An extra tacky, high-temperature grease with excellent water resistance in NLGI grade 1.5.

A “moly” grease especially suitable for high-shock loads and where water resistance is needed.
